

The Norwegian University of Science and Technology (NTNU) in Trondheim represents academic eminence in technology and the natural sciences as well as in other academic disciplines ranging from the social sciences, the arts, medicine, teacher education, architecture to fine art. Cross-disciplinary cooperation results in innovative breakthroughs and creative solutions with far-reaching social and economic impact.

Faculty of Engineering Science  
and Technology

Department of Geology and Mineral Resources Engineering

## **Associate professor/ professor in geology and mineral engineering (Sedimentology/ Petroleum Geology)**

The Professorship will have specific responsibility for teaching and research in sedimentology and petroleum geology. Sedimentology is one of the basic topics in the petroleum geology education in two of our study programs. In addition to research in clastic sedimentology the candidate must have interest in teaching and advising Master and Ph.D. Experience in sedimentological fieldwork is required, and knowledge of the petroleum geology at the continental shelf as well as knowledge of other methodologies (e.g. well logging, seismic, and/or reservoir modeling) is desirable. The department has several analytical facilities (e.g. in mineralogy and geotechnology), and there is also potential for collaboration with the Department of Petroleum Technology and Applied Geophysics (IPT).

Further information on the position may be obtained from  
Head of Department/Professor Mai Britt Mørk, phone +47 73 59 48 12,  
email: [mai.britt.mork@ntnu.no](mailto:mai.britt.mork@ntnu.no)

Applications are to be sent to the Norwegian University of Science and Technology, Faculty of Engineering Science and Technology, Høgskoleringen 6, 7491 Trondheim. The file number for the position (IVT-14/12) is to be clearly stated on the application.

**The application deadline is 11 April 2012.**
